Intentional Leadership

- Leadership is influence. Influence is behavior.
- Are you behaving like a leader?
- 1. Hope is not leadership.
2. Turn every conversation into an opportunity to lead.

Exercise:
- Pair up with someone
- One share a challenging situation from work
- The other person will listen and LEAD their partner to their best answer
Intentional Leadership

3. Follow your leadership intuition
Test your intuition
This will improve your decision time and effectiveness
Intentional Leadership

4. Take time to lead

- You will use time, choose how you use it.
